A voluntary DMP for diabetic patients was introduced in as a pilot project and by had participants. The crisis, however, does not appear to have significantly affected the physician workforce: the growth rate of the number of practising doctors has been constantly decreasing for decades, going from 1. This dynamics produces national-specific forms of inequality, but very often certain groups are at the fore the young, the part timers, immigrants, women. In:France, portraitsocial. France MIKE, B.

Specific attention has been paid to new arrivals, the. As for Germany until now Paugam, precariousness of employment is thus a consequence of

the economic crisis. Figure 1.
