The questionnaire also documented social workers' professional competences, working alliance and motivations for and experiences of follow-up work in the Qualification Programme. Measures were developed in conjunction with programme developers, practitioners and researchers in the field and were tested in a pilot study involving twenty-four social workers.

is the Founding Director of Jane Wexler Consulting, specializing in leadership development, supervision, executive coaching and education. In this study, we only applied quantitative data; however, a mixed-methods approach could further improve our knowledge, as it would contribute a more nuanced understanding related to the process of becoming a professional social worker.
