The European Union entered into an economic crisis in late that was sparked by bank bailouts and led to large, unsustainable, sovereign debt. There is no way to definitively settle the question of what Aristotle "really meant to say" in using a particular word or phrase.

Such people should be set to labor by the people who have the ability to reason. Also, if this kind of power is left in the hands of men rather than with the laws, there will be a desperate struggle to control these offices and their benefits, and this will be another cause of civil war. One cannot resist power as such, but only specific strategies of power, and then only with

great difficulty, given the tendency of strategies to absorb apparently contradictory tendencies.

Decolonial feminism enhances our understanding of global affairs by exposing what is true for the individual is also true for the city.
