One way of taking into account the effects of these Cold War assumptions on our own thinking is to include such mirroring and self-differentiating interactions in our analyses. The project included scholars from East Central Europe as well as Western Europe and the United States; it attempted to bring these scholars together to create a broad framework within which we could raise questions about gender, conduct research, and then compare our results.

The apparent separation of regions was and is a consequence of political economy. Verified Purchase. WorldCat is the world's largest library catalog, helping you find library materials online.
